Product Manager with 4+ years across fintech and high-scale consumer platforms (210M+ annual visits). Having driven 37% GMV growth, 18% churn reduction, and large-scale performance optimizations

EXPERIENCE

FundsIndia | Product Manager (Private Wealth) | Dec 24 – Present

- **Owned live engagement domains end-to-end** across customer and advisor journeys (Wealth Dashboard, Smart Redemptions, Transaction History), driving measurable improvements in retention, repeat usage, and revenue protection.
- **Built and scaled retention mechanics** using ML-based churn prediction, behavioral nudges, and contextual decision flows, reducing premature exits by **18%** and improving long-term retention value by **12%**.
- **Optimized core journeys through UX and experimentation**, leveraging competitive insights, logic-based warnings, and contextual education to increase feature adoption by **15%** and reduce drop-offs at high-risk moments.
- **Operated and iterated on live products continuously**, partnering with engineering, design, and data teams to ship fast, monitor performance daily, and improve experience and reliability (cut load times from 2.5 mins to **<5 seconds**).

Ketto | Product Manager (Growth & Monetization) | Jan 22 – Dec 24

- **Owned growth, monetization, and engagement** for a high-scale consumer platform with **210M+ annual visits**, driving conversion, repeat usage, and GMV growth across core transaction flows.
- **Led 0→1 launches** including the mobile app and recurring donations engine, owning pricing, UX, and donation mechanics; delivered **37% GMV growth** and materially improved donor retention.
- **Built and ran a growth experimentation pod**, executing rapid A/B tests across landing pages, donation flows, and checkout surfaces to improve conversion rates, LTV, and engagement.
- **Drove retention through live engagement surfaces**, launching feeds, notifications, and contextual messaging, and scaling white-labeled partner experiences to support B2B growth and long-term retention.

HSBC | Business Analyst | Jun 21 – Dec 21

- **Improved engagement and revenue across digital banking platforms**, contributing to CRM and customer-facing features that increased user engagement by **30%** and unlocked **₹560M+** in incremental revenue through funnel optimization. **Supported roadmap execution in a regulated environment**, partnering with senior PMs and stakeholders to ship customer-impacting features

ElasticRun | Product Management Intern | Jan 21 – Jun 21

- **Shipped a retention-focused feature** on a B2B logistics platform, driving a **20% increase in transaction volume** and improving repeat usage.

SKILLS:
